How to pair big jambox

You can pair your smartphone, tablet, computer, or device by going to the Bluetooth settings on your device and connecting to "BIG JAMBOX by Jawbone". If you are asked to enter a passcode, enter "0000". After the LED flashes red & white, hold the pairing button until it goes into pairing mode. Chosen Solution Yes, Press the J button 7-10 times in a row very fast. On the last press, hold it down until the power button starts blinking red and orange Hope it helps! 1 Plug your Jambox speaker into the wall. It comes with a charger cord that fits into a 2-prong wall outlet. 2 Opt to connect your Jambox directly to your computer to charge it. You can plug a micro USB cord into your Jambox. Connect the other end to your USB port. Make sure you are not connecting the micro USB cord to a keyboard. It will not charge if connected to a computer accessory other than a USB hub. Advertisement 3 Wait for the LED ring light on the side of the Jambox to flash a white light. It will flash a red light until it is charged. It takes about 2.5 hours to fully charge a Jambox. 4 Disconnect the charger cord when charging is complete. Advertisement 1 Hold the power switch on the side of the Jambox in the up position for 3 seconds. 2 Listen for an audio message from the Jambox that informs you it is in pairing mode. The LED ring light should flash red and white. 3 Lower the Power button to the middle position. There is a top, middle and down position. Advertisement 1 Bring your iPhone within 33 feet (10.1 m) (11 yards) of your Jambox. It will be able to pair via Bluetooth at this distance or less. 2 Turn on the iPhone. Go to your Home screen. Select the Setting app. 3 Look for the word "Bluetooth" near the top of your Settings list. Tap on it. 4 Slide the Bluetooth radio button into the on position, if it is turned off. Wait a few seconds for it to search for devices. 5 Look for "Jambox by Jawbone" in the list of available devices. Tap on it. 6 Enter the general passcode of "0000." Your Jambox and iPhone should be connected. Advertisement Add New Question Question What do I do if my Jawbone mini Jambox won't pair to my iPhone 8? There is a small 'pairing button' under the main power button on the side of the speaker. It has two small arrows on it. Hold this button until the speaker says, "Big Jambox is in pairing mode." Question What if the music doesn't play? Disconnect from Bluetooth and reconnect. If music doesn't play yet, restart the Jambox. Question What should I do if my Jambox connects and plays for a short time, but then fades away? In this case, there might be a technical problem with your Jambox, so you may want to replace it. Alternatively, check to ensure that you have a strong internet connection. Your Jambox might be disconnecting occasionally. Question What if it doesn't ask for a passcode? It should be connected, then. Question Why does my jam box not go into pairing mode? I don't get a blinking red light. Follow the steps above carefully by holding the power switch up for 3 seconds and it should pair. Question My iPhone does not recognize the Jambox. What do I do? Just click a button on the side of the jamb, and it will say "Welcome to pairing mode". Click Jawbone Jambox in Bluetooth, and you will be connected. Ask a Question Advertisement Thanks!
